

## Moseley Multimedia Ltd Carbon Reduction Plan December 2023

### Commitment to achieving Net Zero

Moseley Multimedia Ltd is committed to achieving Net Zero emissions by 2050.

### Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

<b>Baseline Year: 2023</b>	
<b>Additional Details relating to the Baseline Emissions calculations.</b>	
Moseley Multimedia Ltd's carbon footprint baseline measurement was calculated for the time period starting on the 1st January 2023 and ending on the 31st December 2023. This is our first year of Greenhouse Gas emission reporting, so data from a comparable year is not available at this point. We are committed to release an updated Carbon Reduction Plan annually.	
<b>Baseline year emissions: 1st January 2023 – 31st December 2023</b>	
<b>EMISSIONS</b>	<b>TOTAL (tCO<sub>2</sub>e)</b>
<b>Scope 1</b>	5
<b>Scope 2</b>	0.25
<b>Scope 3 (Included Sources)</b>	1.35 4. Upstream Distribution – not applicable 0.0 tCO <sub>2</sub> eq. * 5. Waste Disposal - 0.00 tCO <sub>2</sub> eq. ** 6. Business Travel – 0.05 tCO <sub>2</sub> eq. 7. Employee commuting – 1.3 tCO <sub>2</sub> eq. 9. Downstream Distribution - not applicable 0.0 tCO <sub>2</sub> eq.*
<b>Total Emissions</b>	6.6 TOTAL tCO <sub>2</sub> eq.

\*This is a service-based business with no physical products being transported.

\*\*This is an office-based business with no formal waste monitoring and negligible emissions arising from waste generated

## **Emissions reduction targets**

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease over the next 7 years to 4 tCO<sub>2</sub>e by 2030. This is a reduction of 39%. To achieve this we will implement measures including the following:

### **SCOPE 1**

#### **Fuels (Petrol)**

Switch to more virtual meetings rather than meeting in person  
Potential purchase of a further hybrid vehicle

### **SCOPE 2**

#### **Electricity**

Continue using renewable energy.  
Continue to use cloud based services wherever possible.  
Encourage small cultural and behavioural changes to reduce electricity usage and wasted energy where possible  
Continue to use only LED energy saving lightbulbs  
Use sensors to control heating and lighting equipment  
Increased monitoring of smart meter  
Turning appliances off where possible, rather than using the standby settings.

### **SCOPE 3**

#### **Business Travel**

Use public transport rather than personal vehicles  
Encourage more meetings to take place over MS Teams

## Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>1</sup> and uses the appropriate Government emission conversion factors for greenhouse gas company reporting<sup>2</sup>.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard<sup>3</sup>.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

*Signed on behalf of the Supplier:*

Nick Moseley,  
Director, Moseley Multimedia Ltd  
29<sup>th</sup> December 2023
